Warranty (1)
(In some regions, the warranty is not supplied.)

## 1 Preparing the remote control.

The supplied lithium battery (CR2025) has already been inserted into the remote control.
Pull out the protective sheet before use as shown in the figure.

Protective sheet

---

2 Preparing the photo frame.

Screw the stand supplied with the photo frame into the screw hole firmly until the stand stops turning (when you use the photo frame as a photo stand).

---
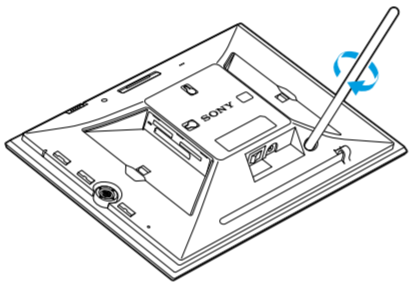

3 Connecting to the AC power source.

1 Insert the plug of the AC adaptor into the DC IN 8.4 V jack on the rear of the photo frame.

2 Connect the AC power cord to the AC adaptor and the wall outlet.

To the DC IN 8.4 V jack

AC adaptor   Plug   To wall outlet

---
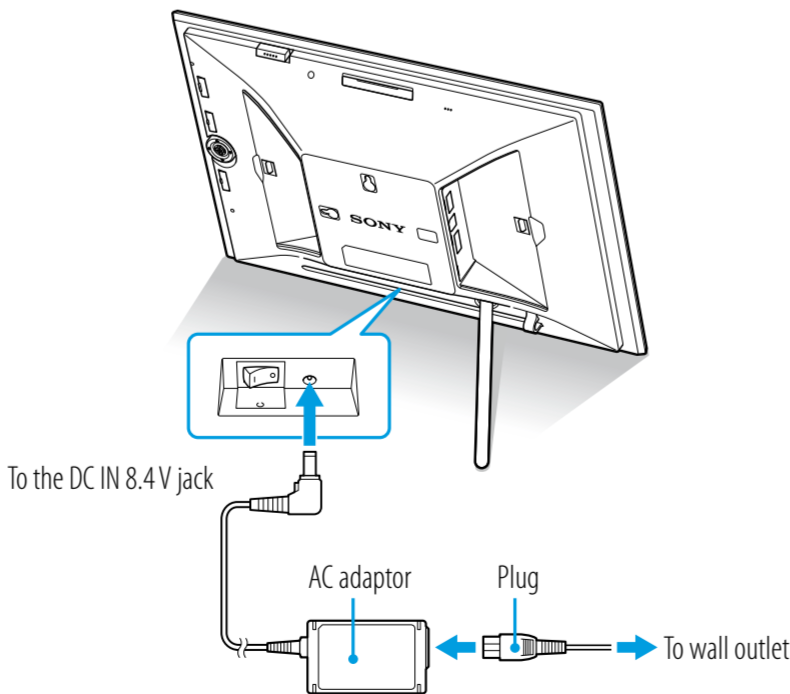

4 Turn the photo frame on.

1 Set to the POWER switch to ON.

The standby indicator turns green and the Sony logo on the front panel lights up.
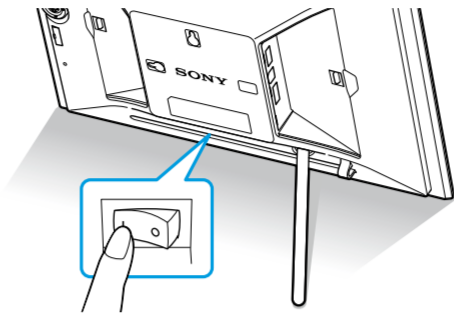

Tips

• Keep the POWER set to ON, when you use the alarm function or the auto power on/off function.
• The value of the following settings are returned to their factory settings if you turn the photo frame to OFF, and leave it off for a long time.
  – the setting value of [Date/time settings]
  – the setting time of the alarm function and the auto power on/off function

---

5 Set the current time.

1 Press MENU.
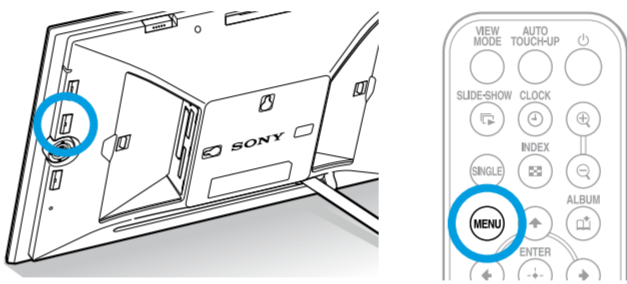

2 Press ←/→ to select the (Settings) tab.

3 Press ↑/↓ to select [Date/time settings] and then press (+).

4 Set the current time following the guidance on the screen.

Date	
Time	
Date Display Order	M-D-Y
First Weekday	Sunday
12hr/24hr display	12 hours

---

6 Insert a memory card into the slot.

**1** Insert a memory card firmly into the corresponding slot.

The access lamp flashes when the memory card is inserted correctly. Reinsert the memory card after checking the label side of the memory card if the access lamp does not flash. The status of each memory card is as follows.
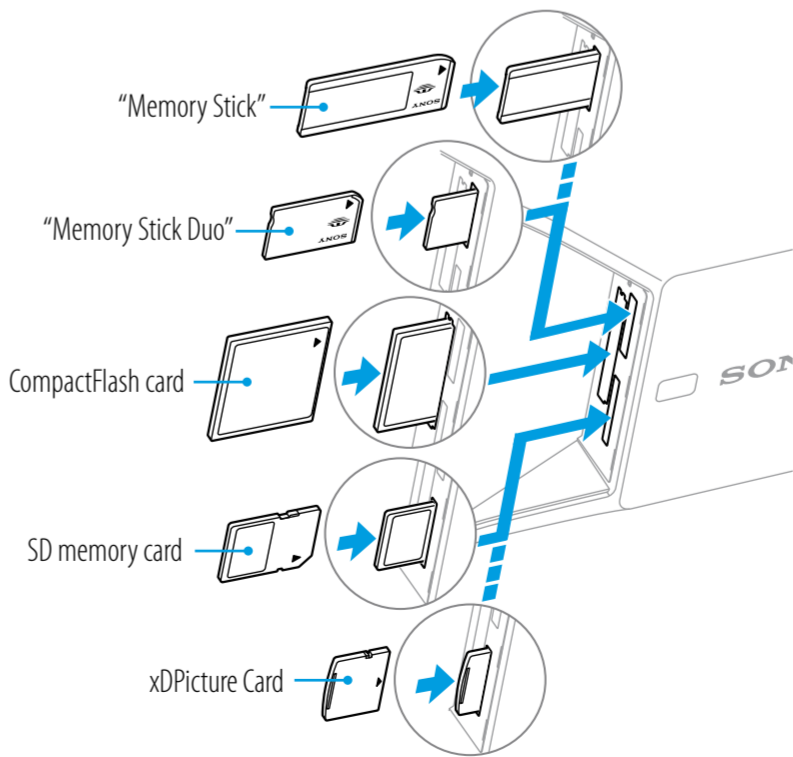

Note

All memory cards have a back-side and front-side, and an insertion direction. Refer to the following illustration and insert the memory card while you take note of its shape and the appropriate slot. It may cause malfunction if you insert the card in the wrong direction.

We recommend that attach the slot cover supplied with this photo frame when you insert the memory card and leave it inserted for a long time.
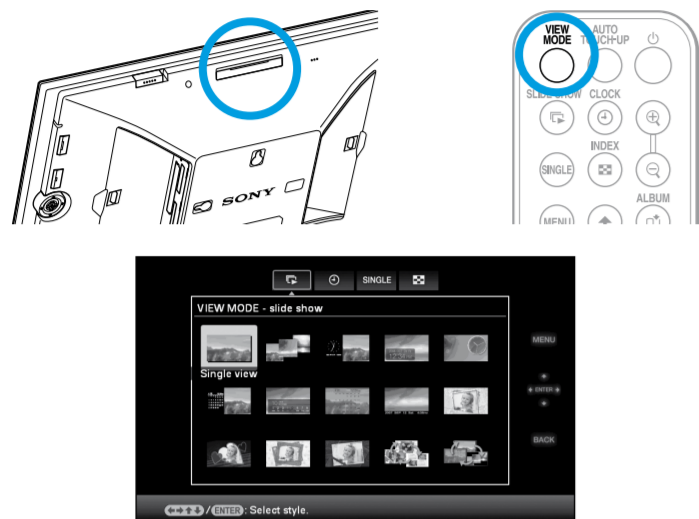

"Memory Stick"

"Memory Stick Duo"

CompactFlash card

SD memory card

xDPicture Card
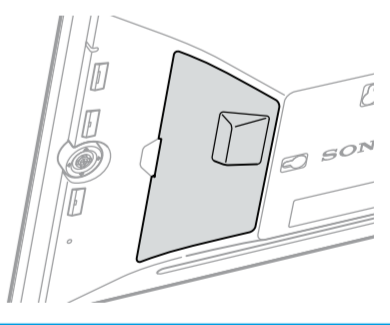

2 The slideshow of the memory card you inserted starts automatically.

You can enjoy a variety of slideshow styles. (⟶)

1 Press VIEW MODE.

The view mode screen is displayed.

VIEW MODE - slide show
Single view
Select style.

2 Select the group you want.

Press ⊙ (Clock and calendar), (Slideshow), (Index), or (Single) on the remote. Or press ←/→/↑/↓ to move the cursor to group area and then press ←/→ on the photo frame to select the group you want.
